DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 4, line 1, "claim 1" change to - - claim 3 - -.

Allowable Subject Matter

2. Claims 1-5 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the reference of the Prior Art of record fails to teach or suggest the combinations of the limitations as set forth in the claim: two discharge chambers, each containing ionisable gas mixtures, stacked vertically on top of each other including a central electrode disposed adjacent to or protruding in the discharge region, and specifically comprising the limitation of means for increasing the capacitance in specific regions of the discharge chambers in the form of circular tracks depressed into the dielectric structural walls and means for converging the luminous discharge at a specific point including electrode assemblies fitted into the tracks, said electrodes being electrically biased out of phase with respect to central electrode.

Regarding claim 2-5 are allowable for the reason given in the claim because of their dependency status from the claim 1.

Art Unit: 2821

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
